THE STATE LIBRARY.

IT MAY BE THROWN OPEN TO THE PUBLIC.

The following extracts are made from the Governor's message, relative to the State Library.

By an act of the Legislature, approved February 20, 1893, the Secretary of State is made ex-officio State Librarian on and after the Tuesday following the first Monday in January, 1895. It will be incumbent upon you, gentlemen, at this session, to provide for the proper care of and the attendance upon the Library, for it will be quite impossible for the Secretary of State to personally perform the duties demanded of the Librarian. The Library has become one of the most beneficial branches of our public service, and one of great value and importance, containing as it does over thirty thousand volumes, about two thousand of which are miscellaneous. The Law Department is of rare value to the legal fraternity, many lawyers coming from all parts of the State and frequently from as far as San Francisco to consult its references, so complete is this section in every detail. The large addition of miscellaneous reading matter has rendered it extremely serviceable to the general reading public, so much so that, in my judgement, it would be well to employ two clerks, which could be done at but little expense, and open this Library from 9 o'clock a. m. until 10 o'clock p. m. daily. The public also should be allowed the privilege of taking out books of the miscellaneous kind by the payment of a trifling sum monthly, say enough to cover cost of wear and tear. This, of course, should be done under the sole supervision of the Secretary of State. Under the present law all State officers have the right to take out books either in person or upon their orders. This, I think, should be changed so as to give the Librarian absolute control of the issuance of all books, as the law holds him responsible as custodian. I am informed that there is but one copy of the full proceedings of the first Constitutional Convention of Nevada now in existence. I would suggest that this book be purchased for the Library at once as it can probably be secured for a trifling sum, and will be of great value to future generations.

The management of the State Library during the past four years by Lieutenant-Governor Pougade has been most excellent. He has re-arranged the entire library, added new shelving, classified the books and prepared a complete catalogue of all the volumes, so that any book called for can be produced at a moment's notice.

The Snowballer.

The late snow is just the kind which is a delight to snowballers, and the boys are making the most of it.

The Chinese and the Indians complain that they are singled out as a special mark for snowballing, but we opine that everybody gets it "in the neck" about alike. The new State officers get it "good and hard" and even the deputies do not escape. The writer saw a Supreme Judge get a swat in the ear yesterday, and the man is wise, who when he gets hit passes quietly along and makes no row about it. Trouble with a crowd of snowballing small boys, is not a desirable proposition and the sooner you get that figured out the better.

We were all boys ourselves once, and took a delight in snowballing older persons. The writer recalls the time when in 1861 in Newark, New Jersey, he smacked the Mayor of the city square in the ear at 60 yards and only took one shy at him.

Of course we felt very sorry for it seven or eight years after, when we began to realize that it was not the correct thing. When you get a dose of the beautiful, done up in a compact ball, instead of filling the air with unproductive profanity, console yourselves with the reflection that in a few years from now, the boy who did it will regret the circumstance, and wish that he had hit you somewhere else or earlier in the morning.

Lem Allen.

Hon. Lem Allen who has represented Churchill county in the Assembly for about a quarter of a century, is in town and a candidate for Speaker.

On previous occasions Lem has been a candidate, but happened a few votes short. He attributes this to his hayseed and granger-like aspect, and now sports a plug hat and patent leather shoes. He has not put the shoes on in this weather, but the first good sunny day he will appear in them in the Capitol building and on the concrete walk. Lem is in to stay and favors woman suffrage.

An entertainment will be given on the 22, at Odd Fellows Hall by the ladies of St. Peter's Guild.

Hill For Free Coinage.

New York, Jan. 17.—A letter from Senator Hill of New York, will be published here tomorrow which will attract considerable attention as bearing upon the campaign of 1896. In it he declares the free coinage of silver as well as gold and "must be held out as the goal which the country must ultimately reach." The letter was written before the memorable extra session of 1893, to Clark Howell, editor of the Atlanta Constitution, who gives it public with the consent of Hill.

May Be Contested.

It is rumored that Frank Bell, the present Warden of the State Prison, will contest the appointment of Sheriff Henderson, made by the Prison Commissioners Wednesday, on the grounds that the appointment was illegal—that the Commissioners have no right to make such appointment. The Warden was formerly elected by the Legislature.

The Tribune is authority for the above paragraph.
